As a fresh Axis School of Animation graduate, I aim to leverage my academic knowledge and some practical experience to contribute to Academi's UX/UI design projects. I am eager to learn and adapt to new technologies and design trends to create intuitive and aesthetically pleasing user interfaces.

The primary focus throughout has been to create -

- **UI design**
- **Adaptable design systems across standalone web-based**
- **Responsive, multi-screen UI design**

Software

Figma

Adobe Photoshop

Google ads

Adobe Illustrator

Adobe XD

Notable Work (demo)

School Web Design - A Comprehensive Design System

- I created a multiscreen design system
- Responsive and smooth with animation
- I was alone on the project, with Gudince as the teacher.
- Experimented on viable phase.

Foodapp - food application for demonstration

- this is just simple for practicing mobile app
- multiscreen and login screens
- this is a simple and multifunction demo
